Foundations in Instruction is a series of workshops for graduate students, postdoctoral scholars, and instructors from all disciplines *who have never taught at the university level (grading experience OK) prior to Spring 2017*. The series is designed to provide people new to college teaching with knowledge, skills and confidence they can use in their first teaching experience. As a participant in this series, you will gain:

- information on best practices from the teaching and learning literature
- opportunities to discuss implementation with a group of peers
- a chance to discuss teaching techniques and strategies with an experienced instructor in your discipline

If you have questions about the series, please contact Deena or Larkin as soon as possible.

Overall series objectives: Upon successfully completing this course, you should be able to:

- articulate an approach to planning a lesson
- design and use assessment to promote learning
- explore one of your own teaching interests
- reflect on your beliefs and practices about teaching and learning

Series completion certificate: While this series does not serve as a formal “certification” process, it does provide you with documentation of your participation in this professional development opportunity. This certificate may be included in your teaching portfolio as evidence of your professional development as an instructor.

You can earn a completion certificate from SITE if you:

- attend the two Institute workshops: “How to Plan a Class Session” (**Jan. 17 OR Jan. 18**) and “Using Tests and Rubrics to Promote Learning” (**Feb. 14 OR Feb 15**)
- attend one additional Institute workshop of your choice: visit our [Events page](#) or see below for options and registration instructions.
- observe the teaching of one instructor of your choice, interview the instructor, and post a reflection on the Series blog (**URL to be distributed at a later date**)
- attend an interactive session on **March 28** from **11 a.m.-noon** in Rider 315 to reflect on your series experiences with peers

PLEASE NOTE: The series completion certificate *does not* count toward the Graduate School Teaching Certificate.

For a complete list of the requirements for the Graduate School Teaching Certificate, please see:

<http://www.gradschool.psu.edu/current-students/tacert/>

Inclusion of all participants:

This publication is available in alternative media on request. Penn State is committed to affirmative action, equal opportunity and the diversity of its workforce. Penn State encourages qualified persons with disabilities to participate in its programs and activities. If you anticipate needing any type of accommodation or have questions about the physical access provided, please contact Brenda Yingling, 301 Rider Building, (814) 865-8681 or site@psu.edu, in advance of your participation or visit.
